

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

BY D. T. VALENTINE.

NEW-YORK:
J. F. TROW & CO., PRINTERS,
33 Ann-Street.
1844.

Entered according to an Act of Congress, in the year one thousand eight hundred and forty-four, by DAVID T. VALENTINE, in the Office of the Southern District of New York.

PREFACE.

It is with pleasure that the Compiler of this volume of the Manual has been enabled to present it to the Municipal Authorities and the Public at a much earlier period than the preceding numbers.

In relation to the work itself, to be brief, it may be safely stated, that no pains or labor has been spared in order to make it as it should be, a book of reference that may be relied on for accuracy in all its details.

By an examination, it will be observed, that it is enlarged in size, and contains a greater quantity of matter than its predecessors. In short, the Compiler is willing that the book itself shall be its own test of merit.

New-York, Sept. 18, 1844.

AN ACT
TO AMEND THE
CHARTER
OF THE
CITY OF NEW-YORK.

PASSED APRIL 7, 1830.—CH. 122.

*The People of the State of New-York, represented in Senate and Assembly,
do enact as follows:—*

1. The legislative power of the Corporation of the City of New-York, shall be vested in a Board of Aldermen and a Board of Assistants, who together shall form the Common Council of the City.
2. Each Ward of the City shall be entitled to elect one person to be denominated the Alderman of the Ward, and the persons so chosen, together shall form the Board of Aldermen; and each Ward shall also be entitled to elect one person to be denominated an Assistant Alderman; and the persons so chosen, together shall form the Board of Assistants.
3. The Aldermen and Assistant Aldermen shall be chosen for one year; and no person shall be eligible to either office, who shall not at the time of his election, be a resident of the Ward for which he is chosen.
4. The annual election for Charter Officers shall commence on the second Tuesday in April, and the Officers elected shall be sworn into office on the second Tuesday in May thereafter; and all the provisions of law now in force in regard to the notification, duration, and conduct of elections for Members of Assembly, and in regard to the appointment, powers, and duties of the inspectors, holding the same, shall apply to the annual election of Charter Officers.

5. The first election for Charter Officers, after the passage of this law, shall take place on the second Tuesday in April, one thousand eight hundred and thirty-one; and all those persons who shall have been elected under the former laws regulating the election of Charter Officers, and shall be in office at the time of the passage of this law, shall continue in office until the officers elected under this law shall be entitled to be sworn into office.

6. The Board of Aldermen shall have power to direct a special election to be held, to supply the place of any Alderman whose seat shall become vacant by death, removal from the City, resignation, or otherwise; and the Board of Assistants shall also have power to direct a special election to supply any vacancy that may occur in the Board of Assistants; and in both cases, the person elected to supply the vacancy shall hold his seat only for the residue of the term of office of his immediate predecessor.

7. The Boards shall meet in separate chambers, and a majority of each shall be a quorum to do business. Each Board shall appoint a President from its own body, and shall also choose its Clerk and other officers, determine the rules of its own proceedings, and be the judge of the qualifications of its own members. Each Board shall keep a journal of its proceedings, and the doors of each shall be kept open, except when the public welfare shall require secrecy; and all resolutions and reports of Committees which shall recommend any specific improvement involving the appropriation of public moneys, or taxing or assessing the citizens of said city, shall be published immediately after the adjournment of the Board, under the authority of the Common Council, in all the newspapers employed by the Corporation: and whenever a vote is taken in relation thereto, the ayes and noes shall be called and published in the same manner.

8. Each Board shall have the authority to compel the attendance of absent members; to punish its members for disorderly behavior, and to expel a member, with the concurrence of two-thirds of the members elected to the Board; and the member so expelled, shall, by such expulsion, forfeit all his right and powers as an Alderman or Assistant Alderman.

9. The stated and occasional meetings of each Board of the Common Council, shall be regulated by its own ordinances; and both Boards may meet on the same or on different days, as they may severally judge expedient.

10. Any law, ordinance, or resolution of the Common Council may originate in either Board, and when it shall have passed one Board, may be rejected or amended by the other.

11. No member of either Board shall, during the period for which he was elected, be appointed to, or be competent to hold any office, of which the emoluments are paid from the city treasury, or by fees, directed to be paid by any ordinance or act of the Common Council, or be directly or indirectly interested in any contract, the expenses or considerations whereof are to be paid under any ordinance of the Common Council; ^{but} this section shall not be construed to deprive any Alderman or Assistant Alderman of fees which he is entitled to by virtue of his

^{any} act, ordinance, or resolution, which shall have passed the Boards of the Common Council, before it shall take effect, shall be

presented, duly certified, to the Mayor of the city, for his approbation. If he approve, he shall sign it; if not, he shall return it with his objections, to the Board in which it originated, within ten days thereafter; or if such Board be not then in session, at its next stated meeting. The Board to which it shall be returned, shall enter the objections at large on their journal, and cause the same to be published in one or more of the public newspapers of the city.

13. The Board to which such act, ordinance, or resolution, has been so returned shall, after the expiration of not less than ten days thereafter, proceed to reconsider the same. If, after such re-consideration, a majority of the members elected to the Board shall agree to pass the same, it shall be sent, together with the objections, to the other Board, by which it shall be likewise re-considered; and if approved by a majority of all the members elected to such Board it shall take effect as an act or law of the Corporation. In all such cases the votes of both Boards shall be determined by yeas and nays, and the names of the persons voting for and against the passage of the measure reconsidered, shall be entered on the journal of each Board respectively.

14. If the Mayor shall not return any act, ordinance, or resolution so presented to him, within the time above limited for that purpose, it shall take effect in the same manner as if he had signed it.

15. Neither the Mayor nor Recorder of the City of New-York shall be a member of the Common Council thereof, after the second Tuesday of May, one thousand eight hundred and thirty-one.

16. Whenever there shall be a vacancy in the office of Mayor, and whenever the Mayor shall be absent from the city, or be prevented by sickness, or any other cause, from attending to the duties of his office, the President of the Board of Aldermen shall act as Mayor, and shall possess all the rights and powers of the Mayor, during the continuance of such vacancy, absence, or disability.

17. It shall be the duty of the Mayor,

FIRST. To communicate to the Common Council, at least once a year, and oftener if I.e. shall deem it expedient, a general statement of the situation and condition of the city, in relation to its government, finances, and improvements.

SECOND. To recommend to the adoption of the Common Council all such measures connected with the police, security, health, cleanliness, and ornament of the city, and the improvement of its government and finances, as he shall deem expedient.

THIRD. To be vigilant and active in causing the laws and ordinances of the government of the city to be duly executed and enforced.

FOURTH. To exercise a constant supervision and control over the conduct and acts of all subordinate officers, and to receive and examine into all such complaints as may be preferred against any of them for violation or neglect of duty, and generally to perform all such duties as may be prescribed to him by the charter and city ordinances, and the laws of this State and the United States.

18. Annual and occasional appropriations shall be made by proper ordinances of the Common Council for every branch and object of city expenditure, nor shall any money be drawn from the city treasury except

the same shall have been previously appropriated to the purposes for which it was drawn.

19. The Common Council shall not have authority to borrow any sums of money whatever on the credit of the Corporation, except in anticipation of the revenue of the year in which such loan shall be made, unless authorized by a special act of the Legislature.

20. It shall be the duty of the Common Council to publish, two months before the annual election of Charter Officers, in each year, for the general information of the citizens of New-York, a full and detailed statement of the receipts and expenditures of the Corporation, during the year ending on the first day of the month in which such publication is made; and in every such statement the different sources of city revenue, and the amount received from each; the several appropriations made by the Common Council, the objects for which the same were made, and the amount of moneys expended under each; the moneys borrowed on the credit of the Corporation, the authority under which each loan was made, and the terms on which the same was obtained, shall be clearly and particularly specified.

21. The executive business of the Corporation of New-York, shall hereafter be performed by distinct departments, which it shall be the duty of the Common Council to organize and appoint for that purpose.

22. It shall be the duty of the Common Council to provide for the accountability of all officers, and other persons to whom the receipt or expenditure of the funds of the city shall be intrusted, by requiring from them sufficient security for the performance of their duties or trust, which security shall be annually renewed; but the security first taken shall remain in force until new security shall be given.

23. Fire Apparatus.

There are Forty Engine Companies in the city, including two at Harlem, one at Yorkville, one at Manhattanville, and one at Harsenville. The engines are all 6 1-2 inch cylinder, except three powerful engines, which are located in the third fire district, viz.: Engine No. 22, 10 inch cylinder, built by James Smith of New-York city. No. 32, 9 inch cylinder, built by John Agnew of Philadelphia, and No. 42 9 inch cylinder, built by ——— Waterman of Hudson. There are thirty-nine Hose Companies, and eight Hook and Ladder Companies, (including one at Yorkville, and one at Harlem,) all of which are in possession of the necessary apparatus for service. There is also a Hydrant Company in each fire district, whose duty it is to take charge of the hydrants in case of fire.

The city is divided into three fire districts, as follows:

AN ORDINANCE

FOR DIVIDING THE CITY OF NEW-YORK INTO THREE FIRE DISTRICTS.

First District.

The first Fire District shall embrace all that part of the city lying north of a line from the foot of North Moore-street to the Halls of Justice, and west of a line running from the Halls of Justice, through Lafayette and Irving Places.

Second District.

The second Fire District shall embrace all that part of the city lying east of the first District, and north of a line running from the Halls of Justice to the foot of Roosevelt-street.

Third District.

The third Fire District shall embrace all that part of the city lying south of the first and second District.

No fire company shall remove their apparatus out of the District in which the same is located, in case of fire or an alarm of fire, under the penalty of being subject to expulsion, or suspension from the Fire Department, unless they shall be permitted so to do by the Chief or one of the Assistant Engineers, who are hereby authorized to give the necessary signal, which is hereby declared to be the constant ringing of the alarm bell in the district in which the fire is raging, when the whole department shall proceed to the scene of conflagration.

Adopted by the Board of Assistants, March 31st, 1842.

Adopted by the Board of Aldermen, April 18th, 1842.

Approved by the Mayor, April 28th, 1842.

For the purpose of guiding the Firemen more correctly to the fire, the districts will be subdivided, and the district bells will be rung as follows:

1st District,	1st Section,	one stroke.
do	2d do	two do.
2d do	1st do	three do.
do	2d do	four do.
3d do	1st do	five do.
do	2d do	six do.

For assistance, the signal will be continual ringing of all district bells except that on the Halls of Justice, which will always ring the section in which the fire is raging.

The force in each Fire District is as follows:

First District.

11 Engines, 11 Hose Carriages, and 2 Hook and Ladder Trucks.

Second District.

12 Engines, 18 Hose Carriages, and 2 Hook and Ladder Trucks.

Third District.

11 Engines, (including the three powerful engines before mentioned,) 10 Hose Carriages, and 2 Hook and Ladder Trucks.

There are in the department one thousand four hundred and eighty eight men, including wardens.

One thousand three hundred and three fires occurred, between May 10th, 1837, and August 1st, 1840.

The following is a list of the fires each year since August 1st, 1837, with the damage to buildings and stocks :

FIRE DEPARTMENT FUND.

The permanent Fund of the Fire Department amounts to \$33,965 25. \$30,965 25 is loaned on bond and mortgage at seven per cent. per annum; one thousand seven hundred and fifty dollars is invested in bank stock, and one thousand two hundred and fifty dollars (being the balance) is invested in Fire Insurance Stock.

The proceeds arising from the permanent fund is about \$9,250 per annum, while the expenditures exceed \$8,000 per annum. The balance being raised by firemen's ball, chimney fines, &c.

The pensioners of the department number over one hundred and seventy widows, who are among the most exemplary and respectable members of society. Many of them are far advanced in the vale of years.

Nine hundred children of firemen are at this moment receiving a course of instruction in the Public Schools, which cannot fail to render them not only a credit to that institution, but eventually useful and honorable members of society.

The compiler feels it his duty to insert the following extract from the report of the Trustees to the representatives of the Fire Department.

"The benevolence of our institution invested with attributes of so pure and lofty a character, reflects an unfading lustre upon the names of those excellent men who first established our fund. A precious, a rich blessing conferred upon the *widow* and the *orphan*, how deeply should each member of the department (as well as the Municipal authorities) be impressed with the sacred and important interests which are involved in the moral position of the Fire Department!"

* Note.—In March, 1815, Mr. Clinton was removed by the Council of appointment, and John Ferguson, Esq., appointed Mayor. Mr. Ferguson then being Naval Officer of the Customs, was required by the President to state which of the two offices he would hold. By the advice of friends he resigned the Mayoralty in June following, when the council appointed Jacob Radcliffe, Esq., in his place. Mr. Ferguson held the Naval Office to the time of his death, in September, 1832. There being no minutes of this change in the books of the Common Council, the above is furnished for the compiler by a friend.

FINANCIAL CONDITION OF THE CITY.

The financial condition of the city on the 1st May, 1841, was as follows, as will be seen by the Mayor's Message, from which the following statement is taken—

"I have requested from the Comptroller, and received a statement of the City Debt up to the first of May last, from which the following appears :

New York City Stocks of 1820 and '29,.....	\$500,000
Less amount held by the Commissioners of Sinking Fund,.....	91,200
	<hr/>
	\$408,800
Public Building Stock,.....	\$515,000
Less amount held by the Commissioners of Sinking Fund,.....	15,000
	<hr/>
	500,000
Fire Loan Stock, a contingent liability,.....	\$882,000
Less an equal amount of bonds and mortgages owned by the Commissioners of Sinking Fund,	882,000
	<hr/>
	000,000
Fire Indemnity Stock,.....	\$358,900
Less amount held by the Commissioners of Sinking Fund,.....	122,700
	<hr/>
	236,900
Floating Debt Stock,.....	\$350,000
Less amount held by the Commissioners of Sinking Fund,.....	168,210
	<hr/>
	181,790
Corporation Bonds—a contingent debt,.....	\$585,000
Less an equal amount of liens on real estate,.....	585,000
	<hr/>
	000,000
Water Stocks,.....	\$7,949,377
Less amount held by the Commissioners of Sinking Fund,.....	298,000
	<hr/>
	7,651,377
	<hr/>
	\$8,978,167

"The City Stocks which will be held by the Commissioners of the Sinking Fund at the close of the present fiscal year, will be sufficient to cover, and in effect cancel the stock of 1820 and '29, and the Public Building Stock. The Fire Loan Stock and Corporation Bonds are contingent liabilities of the city, for which bonds and mortgages, and other real estate liens, are held by the Commissioners of the Sinking Fund, which can be realized and applied to the liquidation of the debt at any time. These, therefore, may be properly considered as no part of the city debt, but rather as a loan of its credit on full and perfect securities

"The Fire Indemnity Stock is, for the most part, payable in twenty-seven years; the provision for its redemption is an annual tax of \$25,000, to be levied upon the real and personal estate of the citizens, one-half of which tax would, however, accomplish its redemption in the time fixed.

"The Floating Debt Stock is payable at the rate of \$50,000 per annum, to meet which, a tax of the like sum is annually to be imposed.

"It will be seen, therefore, that the principal of all the stocks here mentioned, (and which constitute the entire debt of the city, except that for the construction of the Croton Aqueduct,) is fully provided for, and capable of being redeemed without resort to the revenues of the Sinking Fund after the present year; or, in other words, the proper income of the Sinking Fund, on and after May next, when the Croton Water will be introduced, will be applicable, solely, to the cancelling of the Water Stocks.

"The Water debt, as estimated, will reach \$12,000,000. It is computed that the income of the Sinking Fund, as at present constituted, will alone be sufficient to meet and cancel it in forty years. It is to be remembered too, that the Sinking Fund will, long before that period, be greatly enlarged from the avails of such real estate as the Corporation may sell from time to time."

FINANCIAL CONDITION OF THE CITY—1842.

The financial condition of the city on the 7th of May, 1842, was as follows, as will be seen by the Comptroller's Report to the Board of Aldermen, [see Document No. 84,] from which the following statement is taken.

CITY DEBT, MAY 7, 1842.

New-York City Fives, of 1820 and 1829	\$500,000
Public Building Stock	515,000
Fire Loan Stock	525,000
Fire Indemnity Stock	358,500
Floating Debt Stock	300,000
Assessment and other Temporary Bonds	397,500
Water Stock Fives of 1858, 1860, 1870, and 1880	8,721,500
Water Stock Sixes, from 1 to 3 years	1,525,500
Water Stock Sevens, 5, 10, and 15 years	591,500
	<hr/>
	\$13,434,000
Less by amount of the same Stocks held by the Commissioners of the Sinking Fund	898,500
	<hr/>
	\$12,536,400

Extract from the Comptroller's Report, (1841.)

"The provisions already established by law for the payment of this Debt, are ample; the faith and *property* of the City are pledged for the redemption of the Water Debt, as well as for the other Stocks of the City; these latter are already secured by active means on hand; the payment of the Water Stock is distributed through a period of forty years; the Sinking Fund, established to redeem the old Stocks, is continued and made applicable to the Water Stocks, by repeated enactments of both the State and City Governments. This fund alone, without resort to the property of the Corporation, is capable of redeeming the Debt within that period; its minimum revenue of \$200,000 would alone yield in the forty years \$8,000,000, and the compounding through that time would increase it \$4,000,000 more."

FINANCIAL CONDITION OF THE CITY—1843.

The financial condition of the city on the 20th of May, 1843, is set forth in the Mayor's Annual Message to the Common Council, as follows:

The absolute city debt, both permanent and temporary, as measured by its stocks, bonds and checks, outstanding on the 20th instant, was \$1,697,323 33. This sum, however, includes a nominal debt to the Commissioners of the Sinking Fund as holders of its stocks to the amount of \$965,805. With this proper deduction the whole absolute debt may be stated at \$12,731,518 33, composed of the following items:

New-York City Stock of 1820 and 1829	\$500,000
Less amount held by Commissioners of Sinking Fund	95,400
	515,600
Public Building Stock	515,000
Less amount held by Commissioners of Sinking Fund	15,000
	500,000 00
Fire Indemnity Stock	375,068
Less amount held by Commissioners of Sinking Fund	139,188
	235,900 00
Floating Debt Stock	250,000
Less amount held by Commissioners of Sinking Fund	100,000
	150,000 00
Water Loan Stocks	11,974,841
Less amount held by Commissioners of Sinking Fund	616,217
	11,358,624 00
Warrants of Checks outstanding	82,394 33
	<hr/>
	\$12,731,518 33

In addition to the above, other certificates of stocks and bonds have been issued, under the authority of the Corporation, to the amount of \$710,162 64, which may properly be regarded a contingent liability, and for which the city is indemnified by absolute liens on real estate situate in this country. This contingent debt consists of the following items:

Fire Loan Stock.....	\$525,000
Less City Stocks held by Commissioners of Sinking Fund.....	184,780

Assessment Bonds	\$340,220 00
Revenue Bonds.....	200,000 00

	169,969 24

	\$710,162 64

The provisions for the payment of the above debt are stated in the exhibit for the preceding year. See page —.

The following is an extract from a communication of the Comptroller made to the Board of Aldermen, July 31, 1843.

An examination of the schedules will show that the Real Estate of the City, including the Croton Water Works, is estimated at \$23,657,810 70, and produces a yearly rental of \$313,746 80; about \$55,000 of which is pledged to and paid into the Sinking Fund, by ordinance of 1813 to reduce the principal of the City Debt, (which this day amounts to \$12,854,552 00,) and the balance is paid into the Treasury to meet, in part, the interest of the Debt, according to the Act of June 8, 1812, which pledges the whole of the revenues of the Corporation for that purpose.

The Compiler regrets that he cannot insert in place the Valuation of the Real and Personal Estates of the City for the present year. But he has learned that it will exceed that of the preceding year by about \$10,000,000. It will, if procured before the work goes to press, be found in another part of the book.

* The Deaths reported from intemperance cannot be relied on as the whole truth, because many deaths of which intemperance has been the principal cause, are returned under other causes, mostly apoplexy and consumption. As reported, however, the number of deaths in the last few years, in proportion to the population, exhibits a gratifying decrease. The average proportion of deaths to population in 1835, was 1 to 4,067.

Theodore Goerck, *Cabinet-maker*, John Hackett, *Shoemaker*,
John C. Miller, *Bookbinder*, James M. Trask, *Tailor*,
Garret Mead, *Gardener*.

The total receipts of the Institution during the year, including the balance on hand at the close of the year one thousand eight hundred and forty-two, have amounted to thirty-one thousand five hundred and eight dollars and seventy-nine cents; and the disbursements during the same period to twenty-five thousand three hundred and thirty-four dollars and forty-nine cents; leaving on the thirty-first day of December, eighteen hundred and forty-three, a balance in the hands of the Treasurer of six thousand one hundred and seventy-four dollars and thirty cents. This balance was received on the last few days of the year, previous to the receipt of which the treasury was overdrawn, and is the sole reliance of the Institution to meet its expenses for the first quarter of the coming year.

The list of pupils returned to the last Legislature embraced one hundred and fifty-four names. Of these, twenty-seven have since left. During the year just closed, thirty-seven new pupils have been admitted, and nine former ones re-admitted.

The number embraced in the catalogue herewith returned, is one hundred and seventy-three.

The list of State pupils, in which there were several vacancies at the date of the last annual report, is now full, and the Directors have also admitted at the expense of the Institution, several promising children, who have been selected by the Superintendent of Common Schools, in anticipation of vacancies during the coming year.

It is highly gratifying to the Board, that the friends of the Institution have been sufficient to enable them to receive, so far, all suitable applicants from our State, beyond the number provided for by the Legislature, by counties, and by individuals.

The inmates of the Institution have, with few exceptions, enjoyed good health during the past year. There have been few cases of illness, and, with the exception of a girl who died at home some months after leaving the Institution, none that terminated fatally. In a community containing so large a proportion of children, no care on the part of their superintendents, consistent with the liberty necessary to strengthen the constitution for the necessary exposures of after life, can always prevent the consequences of that heedlessness incident to youthful inexperience. The state of health for the past year, added to the results of several of the previous years, confirms the Board in the opinion heretofore expressed, that the location of the Institution, its domestic arrangements, and especially the regular alternations of study, labor, and recreation, are favorable to health, and under Providence afford as good advantages for the preservation of that inestimable blessing, as our pupils would probably enjoy in any other situation.

The mechanical employments, offered to the choice of the pupils or their friends, have continued the same that were specified in former re-

, namely : for the males, gardening, shoemaking, tailoring, cabinet-ing, and bookbinding ; for the females, tailoring, and dressmaking, folding and stitching of books. Those who do not desire to learn er of the above named trades, are taught plain sewing, and all are ctised in the lighter household duties of their sex.

The views of the Board respecting the great importance of the me-
chanical department of the Institution for the Deaf and Dumb, have
been repeatedly expressed in former reports ; and they are gratified to
receive unequivocal indications that this feature in their system of
education is approved by public sentiment.

It is a rule universally known and acted on, that the labor of very
young apprentices will hardly pay the expense of superintendence and
materials. Our pupils usually leave us just when they have acquired
skill enough to make their labor profitable. Hence no expectations
were ever entertained of deriving, from the shops, an income beyond
their necessary expenses. They have been, and will be, maintained at
some addition to the annual expenditure of the Institution, should such
be found necessary, for the same reason that a parent will incur some
expense to give his children a suitable trade—because the mechanical
skill, and the habits of industry and regularity acquired in them, are
deemed, in the great majority of cases, indispensable parts of the edu-
cation of the deaf and dumb.

The Asylum is situated on 50th-st., cor. Avenue 4th.

THE BLOOMINGDALE ASYLUM FOR THE INSANE

Is a branch of the New-York Hospital, and, through a delegated Committee of six of their number, is under the general control of the Board of Governors of that Institution. It is situated near the Bloomingdale road, seven miles from the City Hall, upon an elevated and beautiful site, half a mile from the Hudson River. It commands a view of an extensive, diversified and delightful country, including portions of Long Island and the Sound, Staten Island, New Jersey, the Hudson and Harlem Rivers, the Palisades, Fort Lee and Fort Washington. The grounds are extensive, under high cultivation, handsomely laid out, and planted with flowers, shrubs, and the choicest fruit and ornamental trees.

The principal building of the Asylum is constructed of hewn stone. It consists of a central portion, occupied by the Officers, and two wings, occupied by patients. It is two hundred and eleven feet long, sixty feet wide, and three stories in height, exclusive of basement and attic. There are two other buildings, each standing at right angles with the principal edifice, about one hundred feet in its rear; one at the eastern and the other at the western extremity. These are three stories in height, sixty feet in length, and forty in width.

The westerly half of the establishment is devoted to the male, and the easterly to the female patients, and each of these departments is separated into several subdivisions, for the purpose of a suitable classification of the inmates.

The Asylum went into operation in 1821. From that time to December 31st, 1843, the number of patients admitted was two thousand seven

hundred and sixty-nine, of whom *one thousand three hundred and four* returned to their families and friends, cured.

The following are among the facilities for the moral treatment of the patients :—

1. RELIGIOUS WORSHIP.—A Chaplain is regularly employed, and the Officers, family, and all the patients whose condition is such as to admit of it, assemble for Divine worship on the Sabbath.

2. READING.—A Reading Room, in the Men's department, is furnished with periodicals, newspapers, and a library of about five hundred volumes of scientific, historical and miscellaneous books. The London, the Foreign, the Edinburgh, and the Westminster Quarterly Reviews, Blackwood's Edinburgh Magazine, the Weekly New Mirror, and four daily journals published in the city of New-York are taken regularly. The books, periodicals, &c., are carried into the female department as they are wanted.

3. RECREATION.—Attendants are constantly employed for the purpose of walking out in company with the patients whenever the weather is suitable. The other attendants also devote a portion of their time to this duty. Horses and a commodious carriage are exclusively devoted to the use of the patients, enabling every one who is in a condition to enjoy it, or to be improved by it, to take a ride, from two to three times a week, through the adjacent country.

In the garden there is a large green-house, containing rare and beautiful plants. Into this the patients, accompanied by their attendants, are freely admitted.

4. AMUSEMENTS.—A bowling (or ten pin) alley, and a quoit ground, furnish agreeable entertainment and healthful exercise to the men. A bagatelle table is placed in one of the rooms of the men's department, and is much resorted to for amusement. Other games, as chess, drafts, dominoes, and battledoors, together with musical instruments, the piano-forte, violin flute, &c., are at all times accessible to those who are in a condition to be benefited by them. A ball is given once in each month during the cold season, and frequent parties, in the family parlor, throughout the year.

5. EMPLOYMENT.—Manual labor is never compulsory, though frequently recommended as curative means. Many of the inmates, of both sexes, prefer to be employed. These are invariably the most happy and healthy, and if curable, recover the most rapidly.

The system of treatment is mild and gentle, as free as possible from coercion or restraint, and combining those modern improvements which, wherever they have been introduced, have been found to be the most effectual as well as the most humane.

The food is at all times good, including as great a variety of meat, vegetables and pastry, as is found on well-supplied family tables. The farm yields large quantities of fruit, which is freely distributed among the patients; oranges, figs, pine-apples and other foreign fruits, are also furnished in their season.

The system of inspection in the Establishment is thorough.

1st. The Asylum Committee meet at the Asylum one day in each month, for the purpose of inspection and attending to the general business of the Institution.

2d. Two members of the Committee visit the Institution one day in each week, inspect every part of the premises, and see that all the patients are properly treated.

3d. The Inspecting Committee, appointed by the Board of Governors of the New-York Hospital, is required to visit the Asylum at least once a month for the purpose of inspection.

4th. It is the duty of the President of the New-York Hospital to make a monthly visit of examination to this establishment.

5th. The same duty is required of the Vice President.

These several authorities report their observations to the Board of Governors of the New-York Hospital, at their stated meeting on the first Tuesday of each month.

The officers who have immediate charge of the patients are a **Physician**, who has the general superintendence of the establishment, a **Warden**, a **Matron**, and their subordinates. The Committee take great pleasure in stating that they have entire confidence in the officers now engaged at the Asylum, and in expressing their unqualified belief that they equal, at least, any of their predecessors, in ability, fidelity, and kind treatment of the patients intrusted to their care.

The present Physician, Pliny Earl, M. D., having devoted much time and attention to this branch of Medical Science, and having visited the principal Asylums for the Insane, both in this country and in Europe, is eminently qualified, by education and practice, to discharge the important duties devolving upon him.

For the admission of patients residing in this state, the Revised Statutes require that a Lunacy Warrant be obtained from two Justices of the Peace, or Police Magistrates, issued upon the evidence of two reputable Physicians as to the alleged fact of insanity. For others, the requisitions of the laws of the state in which the patient resides must be fulfilled. A permit is also necessary from one of the Asylum Committee, with whom the payment of the board (which is always in advance) must be arranged.

United States City Despatch Post.

POST-OFFICE, NEW-YORK.

All Letters placed in the Boxes at the various Stations, together with all City Letters deposited either in the Post Office or in the Branch Post Office, will be under the charge of the Department, and will be received for rapid delivery at the hours mentioned below.

Letters addressed to parties renting Boxes at the Upper and Lower Post Office, will be deposited in them as heretofore, unless a request is made that they be sent by the City Despatch Post.

STATIONS.

Letter Boxes are placed at one hundred Stations in various parts of the City, and letters deposited therein, will be punctually delivered three times a day, (Sundays excepted,) at three cents each; option being given, either to free the letters in the manner shown in the following regulations, or leave the postage to be collected of the party to whom the letter is addressed.

POST-PAID LETTERS.

Letters, which the writers desire to send free, must have a free stamp affixed to them. An ornamental stamp has been prepared for that purpose, and may be procured at either of the Post Offices and all the Stations. The charge will be 37 cents per dozen, or \$2 50 per hundred: the reduction of price for the larger quantity being made with a view to the accommodation of those parties sending a considerable number of circulars, accounts, &c.

All Letters intended to be sent forward to the General Post Office for the Inland Mails, must have a free stamp affixed to them.

UNPAID LETTERS.

Letters not having a free stamp, will be charged three cents, payable by the party to whom they are addressed, on delivery.

Letters and Newspapers addressed to the editors of the public press will be delivered free.

REGISTRY.

NO MONEY MUST BE PUT INTO THE BOXES,

unless registered at the Upper Post Office, where a Registry will be kept for Letters, which parties may wish to place under special charge. Free stamps must be affixed to such letters for the ordinary postage, and an additional free stamp must be affixed for the registration; but all such letters must be speedily deposited at the principal office.

The advantages offered by this plan are,

First. The secure and prompt transmission of all registered letters containing any special notice or matter, by which means legal evidence may be obtained of the due delivery of the same; and the immediate despatch of any letter or small package requiring instant delivery.

Secondly. The certain and expeditious delivery of mercantile letters and circulars, of invitations and replies (either under free stamp or unpaid), and every description of Commercial, Professional and Social Correspondence; thus bringing the most distant parts of the city, in effect, near to each other, and providing the means of constant intercourse at a very moderate charge.

HOURS OF DELIVERY

AT THE PRINCIPAL OFFICES.

Upper Post Office, Park, and Lower Post Office, Merchants' Exchange, every day except Sundays.

Letters deposited before 8½ o'clock, A. M., will be sent out for delivery at 9 o'clock, A. M.

CROTON DAM AND RESERVOIRS.

Extracts from the Description of the Croton Aqueduct, by J. B. Jarris, Esq., furnished to Charles King, Esq., for his Memoir on the subject.

The length of the Aqueduct, from the Croton Dam to Harlem River, is 32.85 miles, for which distance it is an uninterrupted conduit of hydraulic stone and brick masonry. The high ground that bounds the northerly side of Harlem River valley, is very near the level of the Aqueduct at that place; and the width of the valley at the aqueduct level is about 145 feet, or a little over one-quarter of a mile; over which a bridge is designed to be constructed (and is now in progress) at an elevation of 114 feet above the level of high tide in the Harlem River, on which iron pipes are to be laid to convey the water across the valley.

The Receiving Reservoir at Yorkville is bounded by 86th-street on the north, 73rd-street on the south, 7th avenue on the west, and 6th avenue on the east. It is 1820 feet long and 833 feet wide on the outside angle of the embankment; containing an area of 35 acres, divided into two divisions, and is (a little over) 5 miles from the City Hall. From the Receiving Reservoir a double line of iron pipes, three feet in diameter, is laid down in 80th street and 5th avenue, to convey the water 2.176 miles, to the Distributing Reservoir at Murray Hill. The location of this Reservoir is on the 5th avenue, between 49th and 42d streets, and is three miles from the City Hall; it is 420 feet square on the cornice of the exterior wall, and contains an area of 4.05 acres, divided into two equal divisions, and has an average elevation of 44.5 feet above the level of the streets around it.

The Receiving Reservoir has a capacity of 150,000,000 imperial gallons, as it now stands.

The Croton Reservoir (which has received the name of Croton Lake) covers about 490 acres of land, and is available as a reservoir for 500,000,000 imperial gallons of water, above the level that would allow the Aqueduct to discharge 35,000,000 gallons per day. The flow of the Croton is about 27,000,000 gallons in twenty-four hours at the lowest stage, which continues, with moderate rises by occasional rains, from two to three months in the year. This may be considered the minimum capacity of the river. When the wants of the city shall require a daily supply of 35,000,000 gallons, it will be necessary, during the season of lowest water, to draw daily from this Reservoir 8,000,000 gallons, to make up the deficiency in the natural flow of the river. This amount the Reservoir would supply for 62 days, without any aid from occasional rains; which may safely be relied upon, to keep up the required supply from the Reservoir, beyond any drought we have ground to apprehend. The supply of the Croton, from its daily flow, aided by this Reservoir, may therefore be taken with great confidence, at 35,000,000 gallons which will be very ample for the wants of the city for a long time to come; and when the day arrives that it will require a larger quantity, it may be obtained by constructing other reservoirs farther up the stream, where there are abundant facilities for such purposes.

To meet on Wednesday evening next at 6 o'clock, at Alderman De
La Montagnie's.

The Compiler to close this volume of the "Manual," presents the subjoined extracts from the ancient Records of the City, commencing at the early period of 1647, and continuing the same down to about the year 1797. These curious matters have been selected from records in the office to which he is attached. The want of time has prevented him from making them more copious, which he regrets, as he feels assured that no one who shall read them but will wish they occupied a larger space in this volume; as they are, even at this late day, full of interest and instruction.

ORDINANCES, &c.,

OF THE

Director General and the Council of New Netherland.

To all persons to whom these presents may or shall come, or who may or shall hear them read:—

PETRUS SUYVESANT, Director General of New Netherland, Curacao, &c., and the Islands of the same, Captain and Commander of the Company's ships and vessels cruising in the West Indies, Sendeth Greeting:

WHEREAS we have observed and remarked the insolence of some of our inhabitants, who are in the habit of getting drunk, of quarreling, fighting, and of smiting each other on the Lord's day of rest, of which on the last Sunday we ourselves witnessed the painful scenes, and we came to the knowledge of by report, in defiance of the Magistrates, to the contempt and disregard of our person and authority, to the great annoyance of the neighbourhood; and finally to the injury and dishonouring of God's holy laws and commandments, which enjoin upon us to honour and sanctify him on this holy day of rest, and which proscribe all personal injury and murmur, with the means and temptations that may lead thereunto. Therefore, by the advice of his Excellency the Director General, and our ordained Council here present, to the end that we may, as far as it is possible and practicable, take all due care and prevent the curse of God instead of his blessing from falling upon us and our good inhabitants, we do by these presents charge, command, and enjoin upon all Tapsters and Inn-Keepers that on the Sabbath of the Lord, commonly called Sunday, before two of the clock in the afternoon, in

case there is no preaching, or otherwise before four of the clock (in the afternoon) they shall not be permitted to set, nor draw, nor bring out for any person or persons any loincs, beers, nor any strong waters of any kind whatsoever, and whatever pretext, excepting only persons travelling and the daily boarders that may from necessity be confined to their places of abode, in the penalty of being deprived of their occupations, and over that in the penalty of Six Carolus Gelders for each person that during said time may or shall have run up a score for any wine or beer in their house. And furthermore, we do hereby forbid all Inn-Keepers and Tapsters whatsoever to keep his house open for common company, or to tap, or deal out on said day, or any other day in the week, after the ringing of the bell in the evening, which shall take place about nine of the clock, any wines, beers, or strong waters, excepting all the members of their families, travellers, and boarders, under the same penalty; and to the end that we may take all due care to prevent all rash drawing of knives, all fightings and personal injuries, and all catastrophes resulting from the same. Therefore, with the praiseworthy approbation of their High, Wise, and Honorable Councillors of the City of Amsterdam in New Netherland, by these presents we do proclaim and ordain that all persons who shall rashly or in anger draw, or who shall have drawn any knife or dagger against another person, in such case shall be fined in the penalty of One Hundred Carolus Gelders, or in case of their failure in the payment of the same, they shall be put to the most menial labour, with bread and water for their subsistence, or in case any person shall have been wounded thereby, the penalty shall be Three Hundred Carolus Gelders, or an additional half year's confinement to the most menial labour, with bread and water for their subsistence.

We do also charge and command our Fiscal, our Lieutenant, our Sergeants, Corporals, and every one of our citizens and inhabitants as well as the soldiers, on all occasions, with all due zeal and activity and fidelity, to take measures that all such persons be pursued and apprehended, so that they may be proceeded against and dealt with as the law directs.

Done in Fort Amsterdam, on this last day of May, in the year of our Lord one thousand six hundred and forty-seven.—1647.

WHEREAS his Excellency the Director General and the Honourable the Council have been credibly informed that certain individual traders engaged in the southern trades and sailing under the license of this government, are in the practice of going into the interior and entering into the Maquaes Country, whereby the regular traffic is ruined not only, but to the great damage and loss of the privileges of those traders who remain with their cargoes at the usual places of deposit, and moreover by such means the good understanding with Indians may be interrupted, and they may be stirred up to murder and put to death such and such persons, whereby these districts of country are in constant danger of being brought into difficulty and war—

Therefore, to the end that we may in the most effectual way guard the interest and honour of the West India Company, we have forbidden and interdicted, and we do by these presents from this time forbid and interdict every one of our inhabitants from having the hardihood to go into the

interior with any cargoes or any other merchandize; but they shall leave them at the usual places of deposit, and there wait for traffic.

Thus done at Fort Amsterdam, in New Netherland, this eighteenth day of June, in the year of our Lord one thousand six hundred and forty-seven —1647.

WHEREAS there is the continual practice of selling much strong drink to the Indians, whereby these districts of country are exposed to imminent dangers, and whereas it behoves us promptly to take measures to prevent the same. Therefore we, the Director General and the Council of the New Netherlands, do hereby forbid, and interdict from this time forth, all Tapsters and all other inhabitants from selling, dealing out, or bartering, in any way whatsoever, or under any pretext whatsoever, to the Indians any wine, beer, or any strong drink, and from permitting the same to be fetched by the mug, directly or indirectly, even though it may be through the third or fourth person, in the penalty of Five Hundred Carolus Gelders, and the farther responsibility for all the misdemeanors that may result therefrom.

All persons are hereby also warned, and forbidden to trespass upon the orchards, fields, and gardens, provided they shall be found in fence, or planted with fruit trees; and every one that shall have trespassed upon any fields, gardens, or orchards, in fence or in fruit, shall be fined in the penalty of One Hundred Gelders, and in addition thereto shall be liable to pay actual damages.

Also, all the inhabitants of the New Netherland are hereby charged and commanded to set off and to put into good fence all their plantations, so that the cattle therein may be kept from committing trespass; which cattle whether they be horses, kine, and in a special manner goats and hogs, must be taken care of, or otherwise disposed of, that they cannot commit any trespass. To this end, the Fiscal Van Dyck shall build a pound in which the cattle shall be detained until the damage shall have been made good, and the fees of officer shall have been paid; let every one take warning, and look out for costs.

Done at Fort Amsterdam, in the New Netherland. Present—His Excellency the Governor, the former Dr. Gen. Keift, the Honourable Berick Wagen, Mr. Lemontagnie, the Captain, Lieutenant Nuton, Panlus Leenders, Jacob Loper, Solomon Temassen, and John Classon Bol—on this first day of July, in the year of our Lord one thousand six hundred and forty-seven.—1647.

WHEREAS, in time past, all free merchants, here in the New Netherland, for some time back, have been in the habit of paying monthly the duties on all the peltries procured here in trade, and of shipping them, when opportunities offer, to Fatherland, therefore it is by Council deemed very necessary to establish a regular duty, so that every one may have the opportunity of knowing what the law requires them to pay; with respect to which it is resolved that the following shall be the established Tariff: for every beaver skin exported, fifteen stivers two halves for one whole one, and three thirds for two whole beavers. For every otter skin, and beaver skin, fifteen stivers. For every skin

of an elk, fifteen stivers. As the other pelties are of less value, the duty shall be as the case may require. Thus done in Council. Present—the Director General, Petros Stoyvesant, Hon. William Keift, former Director, General, Hon. Duicklager, Mons. La Montagnie, Lieutenant Nuton, the Equipage Master, Paulus Leenderse, Jan Clase Bol, This 23d day of July, 1647.

WHEREAS it has come to the knowledge of his Excellency the Director General, and their Honours the Councillors, that in and about the city of Amsterdam, there are brewers who are in the practice of tapping, and selling beer by the small measure, whereby it may happen and come to pass that those neighbours who obtain from them their beer, and pay the excise, may not be accommodated when they shall be tapped dry, therefore, by the aforesaid, his Excellency the Director General, and the Councillors, agreeable to the order and practice in Holland, this has been forbidden; and by these presents it is ordained and interdicted, that no brewer in and around this City, shall be permitted to tap and sell beer by the half pot or small measure, and also that no brewer shall be permitted to brew beer, or procure it to be done for him by others, in the penalty of forfeiting all such beer, and all such stock on hand as shall happen to be in the house of said brewer or tapper, and in addition thereto, he shall be admonished not to do so any more.

Thus done this, twelfth day of January, in the year of our Lord one thousand six hundred and forty-eight.—1648.

WHEREAS it has come to the knowledge of his Excellency the Director General of New Netherland, Curacao, &c., and the Islands of the same, and their Excellencies the Councillors, that certain careless persons are in the habit of neglecting to clean their chimnies by sweeping, and of paying no attention to their fires, whereby lately fires have occurred in two houses, and whereas the danger of fire is greater as the number of houses increases here in New Amsterdam; and whereas the greater number of them are built of wood, and are covered with reeds, together with the fact that some of the houses have wooden chimnies, which is very dangerous; therefore, by the very prompt and excellent Director General, and their Honours the Councillors, it has been deemed advisable and highly necessary to look into this matter, and they do hereby ordain, enact, and interdict, that from this time forth no wooden or platted chimnies shall be permitted to be built in any houses between the Fort and the fresh water; that those already standing shall be permitted to remain during the good pleasure of the Fire Wardens; and to the end that the foregoing order may be duly observed, the following persons are appointed, to wit, from the Council, the Commissary, Adrian Keyser, and from the Commonalty, Thomas Hall, Martin Crogier, and George Woolsey, who in their turn shall visit all the houses in this city, wheresoever they may stand, or may be situated, between the Fort and the fresh water, and shall inspect the chimnies, whether they be kept clean by sweeping, and as often as any shall be discovered to be foul, the Fire Wardens aforesaid shall condemn them as foul, and the owners shall immediately, without any gainsaying, pay the fine of three guilders for each chimney thus condemned as foul, to be appropriated to the maintenance of fire-ladders, hooks, and buckets, which shall be provided

and procured the first opportunity; and in case the house of any person shall be burned, or be on fire, either through his own negligence or his own fire, he shall be mulcted in the penalty of twenty-five guilders, to be appropriated as aforesaid. Thus done, passed, and published, at Fort Amsterdam, this twenty-third day of January, one thousand six hundred and forty-eight—1648.

PETRUS STUYVESANT, Director General of New Netherland, Curacao, &c., and their Excellencies the Councillors, to all to whom these presents may or shall come, or who may hear them read, greeting: Whereas it has come to our knowledge that our former proclamations, issued against insenasonable and intemperate drinking, both at night and on the rest day of the Lord, to the scorn and derision of our persons and our nation, have not been observed and executed according to our intent and meaning; which Proclamations by these presents we do renew, ordain, and enact, that from this time forth they shall continue to be in force, and be maintained and carried out with a stricter observance and execution, according to the obvious tenour and meaning thereof. In the mean while the occasion and the reasons why these our good regulations and well meant Proclamations have not been observed according to the enour and meaning of them are the following, to wit, the kinds of business and the easy profits flowing therefrom, divert and seduce many from their primitive calling, trade, and business, and they devote themselves to tapping, so much so that almost one full fourth part of the city of New Amsterdam have become bawdy houses for the sale of spirituous spirits, of tobacco, and beer, whereby very many do not only neglect and abandon their honest handicraft and business, but also the common man, and the Company's servants in a great measure are allured, and what is still worse, the youth, even from their childhood, noticing the unbecoming conduct of their parents, consequently are drawn off from the path of virtue, unto all idleness, and into what are concomitants, cheating, smuggling, and frauds, in the clandestine sales of beer and brandy to the Indians and natives, both daily by experience, and God teach us better, from which we cannot but apprehend fresh animosities betwixt them and us; and in addition to all this it happens that some honest inns, established and supported for the use and benefit of the traveller, and stranger, and the inhabitants, who do honestly and righteously pay their taxes and excise, and are in the possession of suitable houses, or do hire them, have to bear the greater part of the burdens, whereby these tavern keepers are in a great measure interrupted in their licensed and lawful calling and business. Being ready in these premises to make provision according to the exigency of the case, and the immetrygency of the Therefore we, the Director General and the Councillors aforesaid, on the subject of the tapsters and innkeepers, do ordain and enact the following regulations and bye laws:

I.

In the first place, that from this time fourth there shall be no new tavern, inn, nor any retail grocery, made or established, without the special approbation and consent of the Director General and the Councillors, unanimously agreed to and permitted.

II.

The inns, taverns, and retail groceries that are already in the city may be permitted to continue at least yet for the four following years, yet in the mean time they shall be held under the obligation moreover to employ themselves in some other honest business in these places, together with suitable and honest sureties living under the guardians and supervision of this city of New Amsterdam, each one in conformity with his state, quality, and condition, according to the order and regulations made by the Director and Council, with the advice and approbation of the Surveyor of Buildings.

III.

That the innkeepers and tapsters, to whom we have granted yet four years at least, wishing for sufficient reasons to change their business, after they have laid aside this their former business of tapping, shall not be permitted to transfer the same to any other person, nor yet to this intent rent or sell their houses and dwellings to any other person, without the previous advice and full consent and approbation of the Director General and Councillors.

IV.

Item. The innkeepers and tapsters, from this time forward shall not be permitted to sell, or to mix, or to hand out to the Indians or natives, any beer, wine, brandy, or waters, although it may be through the first, second, or third person that the natives are supplied therewith, in the penalty of the forfeiting of their business and arbitrary correction at the discretion of the court.

V.

Item. They shall be obliged, for the prevention of all fightings and mischiefs, actually to report to the officer, in case any one shall be injured or wounded in their house, in the penalty of forfeiting their business, and one pound Flemish for every hour after the injury or wound has been inflicted, and during which time the tapster or innkeeper has concealed it.

VI.

The proclamation heretofore issued against all unseasonable night tippling and drunk drinking on the Sabbath shall be fulfilled by the innkeepers with strict regard and observance, to wit, That in the evening they shall not keep tavern after the ringing of the bell, nor on the Sabbath sell or deal out any beers or waters to any one (the traveller and the boarder alone excepted), before three of the clock in the afternoon, when there is divine service, in the penalty fixed by proclamation.

VII.

They shall be oblieged not to receive into their houses or cellars any wines, beers, or any ardent spirits, directly or indirectly, before the

receipt of the invoice and the possession of the bill, in the penalty of the forfeiture of their particular business, beers, and spirits, and an exemplary fine besides, at the discretion of the court.

VIII.

Finally, all innkeepers and tapsters who may be minded to continue their business, shall, within the time of eight days after the publication and affixing of these presents, address and give in their persons and their names to the Director and Council, and there solemnly promise punctually to fulfil all things whatsoever that on the subject of tapsters and innkeepers have been ordered, or hereafter may be ordered, in all their particulars, and conduct themselves honestly in their business, as it becomes loyal and honest subjects.

Thus done at our session, at Fort Amsterdam, this tenth day of March, A. D. 1648.

WHEREAS by their High Mightinesses the Director General and the Councillors of New Netherland, it has been daily seen and observed that the goats and hogs are in the habit of daily committing great damage in the orchards, plantations, and other productions here and about the Fort Amsterdam, not only to the discouraging of the cultivation of fine orchards and gardens, but also to many great and particular damages.

Therefore their High Mightinesses the Director General and the Councillors, desirous of making provision in the premises, from this time forth do ordain and enact that between the Fort New Amsterdam (or there about) and the Fresh Water, no hogs nor goats shall be pastured, nor be kept, except within their own inclosures; care must also be had that the goats do not get out of their inclosures, and that they do not damage to any one; also that the goats shall not be pastured beyond the Fresh Water without the herdsman or keeper, in the penalty (in case the goats shall be found out of their inclosures, or on this side of the Fresh Water, or on the other side of the Fresh Water without a herdsman or keeper) of their being attached by the Fiscal, and of their being declared by their High Mightinesses to be forfeited. Be each one hereby warned that he suffer no damage. Dated at New Amsterdam, in New Netherland, 10 March, A. D. 1648; suspended and published the 16th of March.

PETER STUYVESANT, in behalf of their High Mightinesses the States General of the United Netherlands, His High and Mighty Lord the Prince of Orange, and their High Mightinesses the Gentlemen Directors of the General Privileged West India Company, Director General over New Netherland, Curacao, &c., and the Islands of the same, together with their High Mightinesses the Councillors:

Whereas we have seen and observed, that notwithstanding our decrees and ordinances, heretofore issued concerning the keeping and sanctifying of the Holy Sabbath, according to the holy command of God, have not been observed according to our intent and meaning, and whereas the (Sabbath) in various ways has been profaned and desecrated, to the

great scandal, offence, and reproach of the community, and the neighbouring strangers that frequent these places; also to the vilifying and contemning of God's holy word, and our ordinances flowing therefrom. Therefore we, the Director General, and the Councillors aforesaid, for the purpose of averting, as much as lies in their power, the dreaded wrath and punishment of God, through this sin and other misdemeanour, from themselves and their subjects, do, by these presents, decree, renew, and amplify our former proclamations and ordinances, having, for the better observance of the same, with the approbation of the minister of God's word, ordained that from this time forth, in the afternoon, as well as in the forenoon, there shall be preaching from God's word, and the usual exercises of Christian prayer and praise, requesting and charging for that purpose, all their officers, subjects, and vassals, to frequent and attend the same: forbidding, in the meanwhile, during Divine Service, in conformity with our previous proclamations, all taverning, fishing, hunting, and other usual occupations, handicrafts, and professions, whether in houses, cellars, shops, ships, sloops, or in the streets and markets, in the forfeiture of such wares, merchandise, or property, or the redemption of the same with the sum of twenty-five gelders, until otherwise ordered, to be applied for the benefit of the Poor and the Church: and furthermore, one pound Flemish, in case either buyers or sellers, the hirers or the hired that may transgress, to be applied, one half to the officers, the other half at the discretion of the Court. Furthermore, we do hereby enact, and forbid, that no one shall, on the fore part of the day, give himself up to foolish drinking and other excesses, to the scandal and offence of others, in the penalty, in case any one be thus found, of being chastised by our Fiscal, or any of their higher or lower Officers, at their discretion. Thus done, and after the resumption agreed to, and published at New Amsterdam, in New Netherland, 29th April, 1648.

Whereas, by their High Mightinesses, the Director General and the Councillors, it has been with great concern, noticed and observed, that many of the Scotch merchants, and small traders, that from time to time come out of their country with the ships, are doing or aiming at nothing else, than with their underselling and manner of trading to destroy trade: selling their goods very rapidly, giving eleven to twelve gelders in loose seawant for one beaver, and having sold out, they go with their ships whence they may return that same year, without leaving or doing any benefit to the country, to the injury of the inhabitants, who by their freehold and birth, are obliged to bear all the burdens. Therefore, for the purpose of preventing such destroyers of trade, it is deemed advisable and necessary for New Netherland, and the inhabitants thereof, to enact and ordain that from this time forth, all Scotch merchants and small dealers who come over from their country with vessels, with the intention of trading here with Christians or Heathens, in wholesale or retail, shall not be permitted to carry on the least trade in the land, except in case they shall have had a residence here in New Netherland, three following and succeeding years: and furthermore, to be compelled, within one year after their privilege and opportunity, to erect a decent and habitable tenement in this City, New Amsterdam. All traders and others who are in possession of one habitable tenement, and

have resided three years in the place, shall be permitted to trade, and not otherwise ; (the merchant or shipper of their High Mightinesses' vessels alone is exempted,) provided that the same shall not be permitted to have any shop on the land. Thus done in the presence of his High Mightiness the Director General, His Excellency Dincklagen, Monsr. La Montagne, Brian Nuton, and Paulus Leendersen, at New Amsterdam, this 18th September, A. D. 1648.

Whereas there are daily complaints made by the Indians and Natives, to their High Mightinesses the Director General and the Councillors, that some of the Inhabitants are in the habit of setting the Natives at work, and availing themselves of their labours, and of letting them go off unpaid, after the work is done, and as the refusal to pay the Indians for their labour is contrary to the right of all people, whence the Indians are threatening, in case they are not satisfied and paid, that they will take their pay by resorting to other unbecoming measures :

Therefore, for the timely and possible prevention of all mischief, their High Mightinesses the Director General and the Councillors, &c., do hereby warn all the Inhabitants that are any indebted to the Indians for their daily wages, or otherwise, to pay the same without any gainsaying, and in case of the employment of the Indians for the future, they shall be under the same obligation, on the statement or complaint of the Indians, (to whom, for reasons in the case, credit shall be given,) to make payment, in the penalty of such a fine as according to the occasion shall be deemed right. Thus done in Session, and published this 28th September, 1648, at New Amsterdam :

Present, his High Mightiness the Director General, L. Van Dincklagen, La Montagne, Lieut. Newton, and Paulus Leendersen.

The Director General and the Councillors of New Netherland, to all persons who may see these presents, or hear them read, send greeting :

Whereas with great concern we have observed, both now and for a long time since, the depreciation and corruption of the loose seawant among which there are current many that are not perforated and half finished, and also made out of stone, bone, glass, muscle shells, horns, and even out of wood, and broken ones, whereby occasion is given for repeated complaints from the inhabitants, that they cannot go with such seawant to the market, nor yet procure for themselves any commodity, not even a mean white loaf of bread, or a can of beer, at the merchant's, the baker's, or the tapster's, for the loose seawant. Wherein, according to our best ability, desirous of making provision in this emergency, we have resolved and determined, for the furtherance of business and the general good, that from this time forth, no loose seawant shall be current, nor be a lawful tender, except that the same shall be strung on one string, as the general custom has been heretofore ; for the purpose of preventing the introduction and the circulation of all clumsy and unperfected seawant, and for the purpose of making a difference betwixt the commercial seawant and the strung seawant, and in order to prevent all misunderstanding for the time to come, the Director General and Councillors aforesaid do hereby ordain, that the commercial seawant shall be current, and be a lawful tender, as formerly, to wit : six white, or three black seawants for one stuyver, on the other hand, the base strung sea-

The following Prayer the Compiler has thought proper also to insert, showing as it does the spirit that animated and governed our noble ancestors in their judicial proceedings. It should be remembered that at this time the then government of the City assumed judicial powers, and officiated as a sort of patriarchal court for the adjudication of matters affecting the moral as well as the pecuniary interests of the citizens.

The prayer breathes a pure spirit of humble reliance on Divine goodness, to enable them to deal justly with men, which our modern legislators and judges might with advantage imitate.

OF THE CITY OF NEW AMSTERDAM, IN THE PROVINCE
OF NEW NETHERLANDS.

Prayer before Meeting.

O God of gods and Lord of lords, and Heavenly and Merciful Father, we thank thee that thou hast not only created us in thine own image, but that thou hast received us as thy children and guests when we were lost.

And, in addition to all this, it has pleased thee to place us in the government of thy people in this place. O Lord our God, we thy wretched creatures acknowledge that we are not worthy of this honour, and we have neither strength nor sufficiency to discharge the trust committed to us, except thou vouchsafe us thine assistance.

We beseech thee, O Fountain of all good gifts, qualify us by thy grace, that we may with fidelity and righteousness, serve in our respective offices. To this end, enlighten our darkened understandings, that we may be able to distinguish the right from the wrong; the truth from falsehood; and that we may give pure and uncorrupted decisions, having an eye upon thy word, a sure guide, giving to the simple wisdom and knowledge. Let thy law be a light unto our feet, and a light unto our paths,

300

so that we may never turn away from the path of righteousness. Deeply impress on all our minds, that we are accountable not unto men, but unto God, who seeth and heareth all things. Let all respect of persons be far removed from us, that we may award justice unto the rich and the poor, unto friends and enemies, to residents and to strangers, according to the law of truth, and that not one of us may in any instance swerve therefrom; and since gifts do blind the eyes of the wise, and destroy the heart, therefore keep our hearts in judgment. Grant unto us, also, that we may not rashly prejudge any one without a hearing, but that we patiently hear the parties and give them time and opportunity for defending themselves; in all things looking up to thee and thy word for counsel and direction. Graciously incline our hearts, that we exercise the power which thou hast given to us to the general good of the community, to the maintenance of the churches, that we may be a praise to them that do well, and a terror to evil doers.

Incline also the hearts of the subjects unto due obedience; so that through their respect and obedience, our burthens may be made the lighter.

Thou knowest, O Lord, that the wicked and the ungodly do generally contemn and transgress thine ordinances; wherefore clothe us with strength, courage and fortitude, and promptitude, that we may, with all due earnestness and zeal, be stedfast unto the death against all sinners, and misdemeanors.

O good and gracious God, command thy blessing upon all our adopted resolutions, that they may be rendered effectual, and redound to the honour of thy great and holy name, to the greatest good of the trusts committed to us, and to our salvation. Hear and answer us, O gracious God, in these our petitions, and in all that thou seest we need, through the merits of Jesus Christ thy beloved Son, in whose name we thus conclude our prayer: "Our Father, which art in Heaven, hallowed be thy name; Thy kingdom come; Thy will be done, in earth as it is in Heaven; Give us this day our daily bread; and forgive us our debts as we forgive our debtors; and lead us not into temptation, but deliver us from evil; for thine is the Kingdom, and the Power, and the Glory, forever. Amen."

Copy of a Communication from P. Stuyvesant, the Director General, to the Burgomasters and Schepens.

Most Worshipful, Gracious and Distinguished: With great grief of heart do we witness, and we are obliged to witness the destruction that the hogs are doing to the fortifications [these fortifications were ditches with the earth thrown on the one side so as to make a bank] of the fortress, particularly now again, as formerly, when the grass begins to put forth, our Ordinance in respect to this, made the last year at the instance of the Commonalty, on their promise and engagement to put the fort in suitable repair, and especially to keep away the hogs from the banks, was deemed salutary; but observing, after the lapse of one year, that

but little or nothing has been done therein in relation to the fortress, it was again destroyed; daily experience teaches us the necessity to make a protest against the non-fulfilment of the promises, through the failure and neglect of which we see the banks of the fortress destroyed, fallen into decay, and our former work useless. The answer to our insinuation was that the Commonalty now discharged from the commission and task in relation to this matter had made and given it over to the Burgomasters and Schepens, who also had engaged to accomplish it; what has resulted from this remains unknown to us. But we see from personal observation with pain and shame, that the hogs daily are about the banks to the ruin of the same. We therefore request of the Burgomasters and Schepens, that by virtue of the promises heretofore given, order may be established; that the hogs may be kept therefrom, otherwise we shall be under the necessity of enforcing and executing our former order made in relation thereto.

Whereto we remain, most Worshipful Gracious and Distinguished,
Your High Mightinesses'

Most affectionate friend,

P. STUYVESANT.

The Burgomasters and Schepens understand by the written communication this day delivered to us, that a Herdsman shall be provided, and in the mean time the repairs are going on as rapidly as possible, according to former promises of his High Mightiness the Governor General; the posts for that purpose will be furnished. To the Right Honourable the Lordships the Magistrates of Gravesend.

DEAR FRIENDS: Whereas on the date of this 10th February, 1654, a petition is presented to the Court here by Johannes Van Beeck, that the banns (of matrimony) between him and Maria Varleth may be here registered, and be properly proclaimed, and we have understood that the same Johannes Van Beeck and Maria Varleth had previously to this made proclamation of their banns through your Court at Gravesend, which, (under correction,) is contrary to the stile and customs of our Fatherland, It is our request to your honourable Court, in case such an occasion should occur in future, that we may be informed concerning the same, in order on either side to prevent all improprieties, which also we engage to do on our part, especially is the practice and custom of our Fatherland,

that every one shall make three proclamations in the place where his
domicil is, and then he may be married wherever he pleases.—Wherein
we are and remain your Right Honourable Lordships'

Affectionate friend,

By order of the Burgomasters and Schepens of New Amsterdam.

Attest, JACOB KIP, Sec'y.
Amsterdam, in Nieuw Netherlands, this 10th February, 1654.

Caspar Varleth and Johannes Van Beeck appeared in Court, and
prayed most earnestly that on the petition and remonstrance concerning
the marriage between Johan Van Beeck and Maria Varleth, presented
to the Burgomasters and Schepens, may be disposed of, and in conse-
quence of the bench not being complete, it is postponed until Thursday
next, so as in the meantime to notify the other Lordships.

(COPY.)

MY LORD: Whereas on this date in our session, certain important
cases have occurred, so that it is highly necessary that the bench should
be complete, it is therefore our earnest request that your Lordship as a
member of our Court will be here on next Wednesday evening precisely
being the 18th of February, (for many cases have been on hand some
time.) Whereunto we declare ourselves to be your Lordship's affec-
tionate.

By order of the Burgomasters and Schepens of this City of New Am-
sterdam.

Amsterdam, 16 Feb'y, 1654.

To His Lordship Jochen Pr. Ruyter, on his farm.

Johannes Van Beeck appeared in Court and requested, as before, that
action may be had on his petition, offering furthermore, if thought neces-
sary, at the time and the occasion to be ready to affirm under oath what
he has stated in his petition, respecting especially the conversation had
with his Excellency Petrus Stuyvesant.

By the Burgomasters and Schepens of the City of New Amsterdam—
having been seen and examined the petition as presented to our Court on
the 10th and 16th days of this month, touching the bonds of matrimony
between Joh. Van Beeck and Maria Verleth. Therefore we enquire into

First. Who, from the beginning, was the Institutor of Marriage, and
also what the Apostle of the Gentiles teaches thereon.

Secondly. The proper and attained ages of Johannes Van Beek and Maria Verleth.

Thirdly. The consent of the Father and Mother of the daughter.

Fourthly. The distance and remoteness between this and our Fatherland, together with the calamitous relation between Holland and England.

Fifthly. The danger in such case arising from long retardation between these two young persons becoming public, blame being attached to the families on either side.

Our Theologians and our Jurists do say correctly on such matters, that we must not commit any lesser sins to avoid greater ones, therefore we think (with due submission,) that by suitable marriage, (the Apostle in his epistle to the Hebrews calls the bed undefiled honourable,) both the lesser and the greater crimes are prevented.

Therefore the Burgomasters and Schepens of this City New Amsterdam, do judge that the aforesaid young persons having made their proper Ecclesiastical proclamations with the earliest opportunity, and that they follow it up with the bonds of matrimony immediately thereafter.

Some objections made by ye Governor and Councell to ye petition presented in ye name of ye Mayor, Aldermen, and Commonalty, with desire to be explained.

At a Councell held in New-Yorke ye 10th, 9bre, 1683, present the Governor, Mr. Frederick Phillips, Mr. Lucas Saneton,

A petition from yo Deputy, Mayor, Aldermen, and Commonalty of ye City of New-Yorke, being read, was concluded as follows:—

In answer to ye first article, it is thought reasonable that the Towne of Harlem shall have liberty to determine all matters yt come before them undr 40s, att their owne Towne Court.

To ye Third Article it is answered, that there being these words—these magistrates had power to appoint all inferiour officers, as Constables, Overseers, Under-Sheriffs, Cryers, and Marshalls, it is desired that it may be explained what it meant by Marshall in ye sd Article; it is also desired yt may be explained what it meant by peculiar laws, and how far they will extend, as likewise what is meant by Court of Judicature and how far ye sd Court is to extend, and yt ye said Court of Judicature under forty shillings being allowed, it is thought convenient to distinguish betwixt ye sd Courts, and make two articles of this one, being ye third article to ye fourth article, it is thought yt ye watter Baulif belongs to ye admiralty.

And in ye Seventh Article Jews are to be excepted, who are left to ye disposall of ye Governor.

By order in Councell,

JOHN SPRAGO, Sec'y.

An Explanation of severall heads conteined in ye petition lately presented to his Honour ye Governor by ye Mayor, Aldermen, and Commonalty of ye City of New-Yorke, pursuant to ye desire of the Governor and Councell.

Humbly presented to his Honour's further consideration.

The Towne of Harlem is a village within and belonging to this City and Corporation, and for ye more easy administration and dispatch of Justices officers haue been annually appointed by ye Mayor and Aldermen to hold Courts and determine matters not exceeding 40s., both att Harlem and the Bowery, and shall do ye like for ye future, and is intended to be one of ye six ward.

A Marshall is an under officer assistant to ye Sheriffe in seruing writs, sumoneing jurors, looking after prisners, and attending ye courts, and that officer and ye Cryer hath hetherto been one person.

Peculiar laws are laws and ordinances made by ye Mayor, Aldermen, and Common Councill for the ye well and good government of this City and Corporation, and to extend as far as the limits thereof.

Court of Judicature is a court to heare and determine all causes and matters whatsoeuer brought before them, both ciuill and criminall, not extending to life, limb, or member, and had jurisdiction ouer all ye inhabitants within the City and Corporation, and ouer ye Harbours and all Bayes, Coues, Creeks, and Inlets belonging to ye same.

The whole Island being one Corporation, ye inhabitants are all members of one body, and conceiue no need of distinction ; the Mayor, Aldermen, and Common Councell having ye care and charge to make all things as easy and conuenient ffor ye inhabitants as possible, and will haue ye same regard thereto as formerly.

A Watter Bailliff is an officer belonging to a corporation, and ye Sheriff of this city hath usually exerced ye office, by seruing arrests and attachm'ts in ye harbours, bayses, coues, creeks, and inletts belonging to this City and Corporation, by warrants from ye Mayor, Sheriffe, or others his superiors to him directed as Sheriffe and Watter Bayliffe, as well in ciuil as criminal matters.

What belongeth to ye Gouernor or prerogative think not fitt to meddle with, or any wayes restraine.
